To Examiner Wang:

Here is a copy of proposed items of discussion for the phone interview I would like to schedule with you.

There are certain issues that I would like to get your input on to overcome the rejections under 35 U.S.C. §§ 101 and 103:

(1) Discuss a proposed amendment to independent claim 1. (*See below* proposed amendment to claim 1.)

(2) Discuss deficiencies of the cited art *vis a vis* the proposed amendment to claim 1. It is respectfully submitted that the cited art, including Price *et al.* (US Pub. No. 2001/0043716) and Nagae (U.S. Pat. No. 6,230,169), does not teach or suggest each and every element of the proposed amended independent claim 1.

(3) Discuss rejection of independent claim 1 under 35 U.S.C. § 101 in light of the proposed amendment to independent claim 1.

If you have any other suggestions or ideas, I would be glad to discuss them as well. I look forward to speaking with you. To contact me, please call me at 330-881-2185. Thank you again for your time and consideration.

Regards,

Francis

DRAFT – PROPOSED CLAIMS

1. (Currently amended) A system that facilitates free form digital inking, the system is recorded on a computer-readable medium and capable of execution by a computer, comprising:

a processor;

an annotation management component that generates a zoom window comprising an inking region for a digital document; and

a navigation component that enables manual and automatic re-positioning and re-sizing of the zoom window and the inking region relative to the digital document, the re-positioning and re-sizing of the zoom window and the inking region occurs prior to, concurrently with, and after annotation of the digital document based at least in part on an amount of annotation information displayed in the inking region, the size of the zoom window corresponds to the size of the inking region.
